ONTARIO ENERGY BOARD

NOTICE OF A RATE HEARING

Atikokan Hydro Inc. has applied to increase its electricity distribution rates effective May 1, 2027

Atikokan Hydro Inc. (Atikokan Hydro) has applied to the Ontario Energy Board (OEB) to increase its electricity distribution rates effective May 1, 2027.

The requested rate changes are set using an OEB-approved formula, which is tied to inflation and other factors intended to promote efficiency. If the application is approved as filed, a typical residential customer and a typical general service customer of Atikokan Hydro would see the following increases:

Residential (750 kWh)	**$3.75 per month**
General Service less than 50kW (2,000 kWh)	**$11.10 per month**

Other customers, including businesses, will also be affected. It is important to review the application carefully to determine whether you may be affected by the proposed changes.

Atikokan Hydro has also requested approval to adjust its Retail Transmission Service Rates based on the proposed rates calculated using an OEB approved methodology. Retail Transmission Service Rates are the rates that a distributor charges its customers to recover the transmission-related costs that the distributor pays to transmission providers.
